

KITin 2080 MIG EURO

NEW STRONGER VERSION

PORTABLE MIG/MAG WELDING MACHINE

FEATURES

- High efficiency
- Excellent welding parameters
- Easy setting of welding parameters (welding parameters can be easily adjusted on the machine, welding voltage and wire feed speed are adjustable by a single control element at the same time according to a welded material thickness. The control element is used for soft voltage adjustment which determines the arc length.)
- Lightweight and small
- Reliable design
- Thermal protection
- High duty cycles
- Space for a coil with wire \varnothing up to 200 mm
- Possibility to use wire \varnothing 0,6 - 0,8 - 1,0 mm

DESCRIPTION

KITin 2080 MIG EURO is a simple portable welding machine for welding with method MIG/MAG suitable for professional and home use.

It is a small and lightweight welding machine with great efficiency.

For its carrying is used plastic handle. It is also suitable for the power generators, such as on construction sites. The machine allows easy adjustment of welding parameter.

TECHNICAL DATA	KITin 2080 MIG EURO
Code	51259
Power supply 50/60 Hz	1x230 V \pm 15%
Mains protection – slow	16 A
Welding current range	20-170 A (CO₂), 20-190 A (Ar+CO₂)
Duty cycle 35%	170 A
Duty cycle 60%	140 A
Duty cycle 100%	120 A
Mains current / input 60%	22 A/5,0 kVA
Output voltage settings	22-31 V
Protection degree	IP23S
Wire feed speed	1-12 m/min.
Dimensions LxWxH	470x200x310 mm
Weight	13 kg
